

JOB OBJECTIVE

Creative and detail-driven **Software Engineer** with expertise in front-end and back-end web development. Committed to building secure, scalable CRM applications and delivering seamless user experiences through modern technologies like Vue.js, Laravel, and Tailwind CSS. Seeking a growth-focused role to drive innovation, performance, and user trust.

CORE COMPETENCIES

- Full-Stack Development (Vue.js, Laravel, JavaScript, PHP)
- Secure KYC Integration & User Onboarding Systems
- API Engineering & Backend Optimization
- Agile & Test-Driven Development
- Git Workflows & CI Deployments
- UI/UX Design for CRM Interfaces
- Database Design (MySQL, SQL)
- Scalable Application Architecture

TECHNICAL SKILLS

Frontend Development: Vue.js, JavaScript, Tailwind CSS, HTML5, CSS3

Backend Development: Laravel, PHP

Database Management: MySQL, SQL

Version Control & DevOps: Git, GitHub, REST APIs, Agile Workflows

Security: Form Validation, Secure Coding, KYC Integration, Compliance-Driven Systems

Development Tools: Postman, VS Code, Git Workflows, CI Deployment

SOFT SKILLS

Communication | Collaboration | Problem-Solving | Time Management | Critical Thinker

PERSONAL DETAILS

Date of Birth: 30th September 2002

Languages Known: English & Hindi

Permanent Address: Jareliya, Bajna, Mathura- 281201, Uttar Pradesh

PROFILE SUMMARY

- Currently working as a **Software Engineer** at **Ipacct** since **June 2023**, with primary focus on CRM systems and secure onboarding.
- Designed and developed modular components using **Vue.js** with responsive styling via **Tailwind CSS**, ensuring consistent cross-device experience.
- Engineered **KYC-enabled onboarding flows** for regulatory compliance, improving data integrity and conversion rates.
- Implemented scalable back-end logic using **Laravel**, integrated RESTful APIs, and maintained optimal performance across CRM modules.
- Proactive in Agile sprints, contributing to feature releases, testing, and continuous refinement.

WORK EXPERIENCE

Software Engineer | Ipacct | Noida | Jun' 23 - Present

Key Result Areas:

- Spearheaded user onboarding features integrated with automated **KYC checks** for enhanced security and smoother experience.
- Developed CRM dashboards and user workflows using **Vue.js** and **Laravel**, aligned with business requirements.
- Ensured responsiveness and clean design using **Tailwind CSS**, enhancing overall UI quality.
- Collaborated in Agile cycles and used Git workflows to maintain version control and streamline deployments.

PERSONAL PROJECTS

To-Do App with React and Docker on Azure DevOps | Mar' 25

- Constructed and containerized a React-based To-Do Application using Docker, then **orchestrated** its deployment through an automated Azure DevOps CI/CD pipeline to Azure Web App for Containers, effectively managing the entire application lifecycle with cloud DevOps solutions.

YouTube Clone Application Deployment on Azure | Feb' 25

- Engineered and launched a YouTube Clone application by utilizing Azure Repos and establishing an automated CI/CD pipeline within Azure DevOps, deploying it as an Azure Web App to streamline build, release, and deployment workflow.

CERTIFICATIONS

- Core Java, HackerRank, 2024
- SQL, HackerRank 2024
- Problem Solving, HackerRank, 2024

EDUCATION

- Bachelor of Computer Application**, GLA University, Mathura, 2023
